SALOON MAN RUN OUT OF FARRELL

SATURATED HIS BUILDING WITH OIL AND BURNED IT TO GROUND.

LOVELOCK, Nev., Feb. 8.—A special to the Humboldt Star says: News reached here last night that serious trouble may occur at Farrell, one of the camps of the Seven Troughs district on account of an effort which the citizens are making to rid the town of bad characters.

Sheriff Lamb was telegraphed for and arrived last night and left at once for Farrell to take charge of the situation and bring about peaceable conditions.

Yesterday the citizens of Farrell ran a saloon man named Miller out of the camp and then saturated his saloon with oil and burned it. Miller has the reputation of being a gun fighter and his saloon was a resort for bad characters of the town. Besides Miller two others were conducted down the canyon, but they made resistance and a shooting was narrowly averted.

The feeling among the good citizens of Farrell is running high and they are determined to clean the town of the disreputable element.

The tough characters will all be compelled to leave, with orders not to return or they will be given summary punishment.

Sheriff Lamb left for Farrell last night, having received a dispatch from Deputy Sheriff Cooper of Lovelock that the situation demanded the sheriff's immediate presence. The sheriff went to Lovelock on No. 9, the fast mail, having been given a permit to ride on that train. The sheriff is a fearless officer and he will doubtless straighten out matters at Farrell very quickly.

TURNING OUT THE BEST WORK

The bindery of the Bonanza is turning out the best work in the city, and it is giving such great satisfaction that anyone who has his work done there once, never goes anywhere else. The plant is the finest and most complete, not only in the State, but this side of San Francisco. We can turn out all kinds of work that is demanded in the offices of lawyers, brokers, promoters, mining companies, or for any other kind of business, and we guarantee satisfaction in every respect. One trial will be sufficient to establish the truth of this statement. It pays to go where only the best kind of work is done, and it pays to patronize home industry.

SELLING PRESSURE IN STOCK MARKET

(By Associated Press.)
NEW YORK, Feb. 8.—There was nothing striking in the news today to account for an increase of the selling pressure in the stock market. The movement was rather the cumulative influence of a feeling of discouragement that has grown up during the week as to any prospect for an early revival of widespread demand for securities such as can only form a proper basis for successful speculation operations. A considerable period of dullness and neglect of the stock market is the clearly expressed anticipation that is heard among habitual over-raters and voiced in the action of the market. Bonds were easy.

PROHIBITIONISTS CALL CONVENTION

COLUMBUS, O., Feb. 8.—Fifteen hundred and twelve delegates and as many alternates are provided for in the official call for the national prohibition convention, which will meet at Columbus on July 15. The call was sent out today by Charles Jones, chairman, and W. G. Calderwood, secretary of the Prohibition national committee. The convention was called "to nominate for President and Vice-President."

HOWARD GIVEN HIGH RANK.
WASHINGTON, Feb. 8.—The Senate today passed the bill placing Major-General O. O. Howard on the retired list of the army as a Lieutenant-General.

RAWHIDE CLAIMS SELL FOR \$30,000

For a consideration of \$30,000 the Miller lease on the Hooligan No. 2 claim at Rawhide was disposed of by Reno people to Thomas Kearns, the well known Goldfield capitalist and mine owner yesterday. The deal was made in Reno and Robert Preston, S. E. Phippen and B. B. Ellis are the men who disposed of the property and thus came into possession of a small fortune.

The Miller lease is considered one of the best pieces of property in the state and on one of the original locations of the Rawhide district. At the present time there is a 75-foot shaft on the property with about 40 feet of drifts running both ways on the ledge. The main ore body is about four feet in width and the average value is \$250 to the ton, principally in gold.

The Hooligan No. 2 claim on which the lease is located is the property of L. Van Dorn and associates. They are at present working the property and the main ledge or the district passes through the Hooligan No. 2 and is found on the Miller lease. Some of the ore from the ledge on the Miller lease is of the picture variety and fairly glistens with the yellow metal. The new owners of the lease are preparing to carry on a vigorous campaign of development work and expect to make regular shipments at once.—Reno Gazette.

EAGER SEEKERS START FOR GOLD

A big rush was on last night from Reno to a new mining discovery near Brown's station, about 80 miles east of here on the Central Pacific. Eight automobiles, loaded to the guards with mining men, eager for a chance at the riches of the new discovery, left Reno during the afternoon and evening, and over 100 left the town later in the night on the first east-bound train.

The discovery was made as long ago as last Saturday by two brothers, John and Joseph Mackidon of Lovelock, but was kept a profound secret until yesterday, while the discoverers were staking out all the land they thought they wanted in the neighborhood. When it did leak, there was a rush from all along the line.

The discovery was just beyond the first range of hills west of Brown's station, and at a point about 10 miles from that station. It is a short distance from Laurie's Wells, where a strike was made last spring that occasioned some excitement for a time, but eventually "petered" out. The present strike gives better evidences of permanency, besides being very much richer.

The rock is of that gold-spangled, gold-studded variety which is comprehensively denominated "picture rock," and it has been found in several places in the neighborhood of the original strike, indicating that there is a considerable body of it. The range in which it was found is said by those who have prospected Humboldt county extensively to be a continuation of that in which the Seven Troughs strike was made.—Reno Journal.

We deliver our goods, so send in your orders to H. J. Hall & Co., for wet goods. Phone 812. tf

METEOROLOGICAL REPORT.

The following is the meteorological report for the week ending Feb. 7, 1908:

Highest barometer, Feb. 5... 30.47
Lowest barometer, Feb. 3... 29.75
Highest temperature, Feb. 7... 38
Lowest temperature, Feb. 4... 20
Mean temperature... 29
Average dew point... 25
Average humidity... 87
Number clear days... 1
Number part cloudy days... 4
Number cloudy days... 2
Number days with snow... 2
Precipitation for week... .24 in.
